Find the Missing Number

1 )  $X \div 6 = 26$        $X = \underline{\quad}$       2 )  $X \div 10 = 30$        $X = \underline{\quad}$

3 )  $78 \div X = 26$        $X = \underline{\quad}$       4 )  $740 \div X = 20$        $X = \underline{\quad}$

5 )  $175 \div X = 7$        $X = \underline{\quad}$       6 )  $476 \div X = 14$        $X = \underline{\quad}$

7 )  $1444 \div X = 38$        $X = \underline{\quad}$       8 )  $12 \div X = 12$        $X = \underline{\quad}$

9 )  $X \div 19 = 36$        $X = \underline{\quad}$       10 )  $400 \div X = 16$        $X = \underline{\quad}$

11 )  $108 \div X = 12$        $X = \underline{\quad}$       12 )  $70 \div X = 14$        $X = \underline{\quad}$

13 )  $X \div 26 = 11$        $X = \underline{\quad}$       14 )  $414 \div X = 23$        $X = \underline{\quad}$

15 )  $X \div 27 = 32$        $X = \underline{\quad}$       16 )  $X \div 18 = 6$        $X = \underline{\quad}$

17 )  $297 \div X = 27$        $X = \underline{\quad}$       18 )  $X \div 1 = 18$        $X = \underline{\quad}$

19 )  $X \div 27 = 22$        $X = \underline{\quad}$       20 )  $X \div 16 = 37$        $X = \underline{\quad}$

21 )  $X \div 24 = 7$        $X = \underline{\quad}$       22 )  $225 \div X = 25$        $X = \underline{\quad}$

23 )  $54 \div X = 18$        $X = \underline{\quad}$       24 )  $66 \div X = 11$        $X = \underline{\quad}$

25 )  $X \div 15 = 29$        $X = \underline{\quad}$       26 )  $592 \div X = 16$        $X = \underline{\quad}$

27 )  $319 \div X = 29$        $X = \underline{\quad}$       28 )  $X \div 21 = 38$        $X = \underline{\quad}$

29 )  $X \div 21 = 25$        $X = \underline{\quad}$       30 )  $X \div 39 = 26$        $X = \underline{\quad}$
